https://linkedin.com/in/pritamrauniyar/ Bangalore, India

Objective

Looking for a challenging career that demands the best of my technical and analytical skills, and helps me broaden and enhance my current skills and knowledge.

Experience

Elevate K-12 June 2023 - Present
Software Development Engineer Mumbai, India

- Led the front-end development of new service from scratch using "Angular" with a modern modular architecture, design patterns, CI/CD pipelines setup and Azure AD B2C SSO integration. Optimized user experience by reducing API calls, applying token caching, and improving performance by 5-6 times.
- Designed and maintained a custom Azure AD B2C Single Sign-On solution, providing a unified login experience for all Persona. Dynamically routed users to their designated portals, eliminating single redirect URL limitations.
- Combined api calls, introduced lazy loading, and debounce techniques, and utilized CDN-cached images, implemented token caching which led to 50% reduction in B2C token generation load tests into multiple services.
- Created POCs on system alerting and monitoring, multi-user collaboration whiteboard, and Guacamole and Neko for remote desktop/browser access.
- Created a dynamic, responsive student survey form with state management, unsaved changes detection feature, caching to enhance user experience.

Ola Electric Technologies June 2022 - April 2023
Software Development Engineer Bangalore, India

- Designed a seamless payment experience for Debit/Credit card users by designing an intuitive UI using "React" and integrating robust API validation and integration processes.
- Designed a user-friendly UI that allows users to efficiently filter their scooter delivery dates by date, time, location and VIN number.
- Diagnosed and resolved multiple critical software bugs using an agile software development and methodologies, significantly enhancing system stability and delivering an optimized user experience.

Ranked 4th in 'Quiziosity' (Aviskar 2k18)

Projects

Web - Dev (My Portfolio)

https://pritamrauniyar.com.np/

- Designed and developed a responsive, single-page portfolio web application using React, showcasing professional activities through efficient data caching, ensuring a dynamic user experience with optimized performance across various devices.

Web - Dev (EverGreen Impex)

https://pritamrauniyar.github.io/EvergreenImpex/

- Developed a comprehensive, user-friendly web application for "EverGreen Impex" using HTML, CSS, Javascript, and Bootstrap. The site features an intuitive UI, detailed product and service information, a customer inquiry form, and is optimized for a seamless user experience with efficient loading across devices.

Education

Motilal Nehru National Institute Of Technology, Allahabad

B.Tech | Electronics and

Communication

CPI 7.35 / 10

2018 - 2022

Model Secondary School, Janakpur

71.6% (NEB, Class XII)

2017

Galaxy Secondary School,

Janakpur

83.14% (NEB, Class X)

2015

Skills

Programming

Javascript, C++, C, Java, HTML/ CSS

Technologies

Angular, React, RxJs, Git/ Gitlab, Azure AD B2C, Jira, Rest Api, SQL, Dynamodb, AWS cloud

Interests

Problem Solving, Data Structures, Algorithm, OOPs and Competitive Programming

Soft Skills

Leadership, Team Work, Flexibility, Mentorship

Achievements

Technical:

- Ranked 4th in 'Quiziosity' (Aviskar 2k18)
- Won 3rd prize in 'Robomania' A Robotics coding competition (Aviskar 2k18)
- Won 1st prize on inter school quiz competition

Others:

- Runner up in dance competition (A cultural Fest event)
- Won gold medal on futsal (NPL 2k18)
